Ayurveda: The Knowledge Of Life

Vedas (sacred-knowledge) are ancient doctrines of great knowledge, acknowledged to be of relevance in the modern world. Ayurveda (life-knowledge) is considered as Upaveda of Atharvanaveda. Health is a prerequisite for achieving the supreme ends of life - material success, mental peace and spiritual freedom. Ayurveda is one of the oldest systems of health care, dealing with both the preventive and curative aspects of life in a most comprehensive way.

Modern lifestyle has made us susceptible to a host of ailments. As we are stepping away from nature, many of nature's supplements are slowly vanishing. The stress and race of this lifestyle leaves the individual physically and mentally vulnerable. Although the modern man claims to have developed an advanced medical care with sophisticated medical equipments and powerful medicines, he is still struggling to conquer a number of ailments like acute renal failure, chronic kidney diseases, rheumatoid arthritis, osteoarthritis, gastric problems, liver cirrhosis, eradication of kidney stone, cancer, gangrene, diabetics, asthma, etc. It's here where the time-tested and globally appreciated realm of Ayurveda steps in.

Introducing Elixir for Life

Seldom are we aware how an incident can lead to a surprising turn of events, as much as, to a great invention. A senior IAS officer had his father suffering from kidney failure in 2008, and his second son suffering from blood cancer in 2010. Since, he had heard about Vedas being rich source of methods and measures for health care and treatment, he started reading them. He discovered the role of plant parts in healing the body. Being an Agriculture Science graduate with the background of medicinal plants course study, he researched further to develop medicines that can heal our body without having any side effects. He, first, successfully tested his discovery to treat his own age-old rheumatoid arthritis, later clinically using it to treat the ailments of his son and father. Now, all of them are leading a healthy life.

Encouraged with the results, he started researching further. He addressed a lot of common but serious ailments and found herbs extracts based on healing solutions. The results were so drastic that people who were relieved termed these potions as 'miracle'. And hence, the inventor named them as "Miracle Drinks".

Thereafter, a number of eminent personalities, who had various incurable health disorders across India and beyond, volunteered to use the medicines on themselves. The results were amazing. That's when the idea of helping people at large struck the inventor and he decided to produce these potions to address different ailments. In 2015, the inventor, Mr S M Raju gave the formulae to Mallur Flora, a Bangalore based company, for commercial production on a condition that 50% of the profit from its sale has to be spent on education of rural, poor children in Gurukulashram concept from 6th standard to 12th standard in CBSE English medium. A personal tragedy, thus, became a blessing for the entire humanity.

- ◆ 100% Herbal ◆ 100% Organic ◆ No side-effects
- ◆ Can be taken with any kind of Allopathic medicine
- ◆ It is an over-the-counter drug as per U.S. Food & Drugs administration. This drug can be purchased without a prescription.

Indications – Medicine Mono/ Combinations (herbal Compounds) For Various Incurable Diseases, On The Basis Of Vedic Literature With Alopathic Principles.

Introduction

 **INVENTIONS:** The invention has taken place due to inevitable reasons, i.e., to find a cure for rheumatoid arthritis for the inventor, to cure Acute Renal Failure problem of inventor's father and then to cure blood cancer of inventor's son. He successfully cured the patients with his medicine and thereafter, he set out on a pursuit of inventing medicines for various incurable predominant diseases keeping Vedic literature as a base and with the guidance of Dr. Arun Kumar Thakur, retired professor and head of the department of Pediatrics, Nalanda Medical College, Patna.

 **HERBAL COMPOUNDS:** It is a 100% herbal compound. No metals have been used. All the raw materials are handpicked by tribal folks in different states, and it has been tested under NABL/ISO 17025 accredited laboratories. All these herbs are mentioned in the schedule -1 of the Drugs and Cosmetic Control Act consumed in empty stomach in the morning between 5 AM to 7 AM by giving a gap between 5 to 10 minutes

- ◆ S1- Anti Ageing Support
- ◆ S2- Ortho Support
- ◆ S3- Cardiovascular Support
- ◆ S4- Liver Health Support

- ◆ S12- Urinary Care Support
- ◆ S13- Digest Care Support
- ◆ S14- Migra Care Support

1940. Elixir contains simple herbal aqueous decoction having zero aflatoxin, pesticides and metals. It is manufactured in 10.29 acres of Industrial Green Campus, spread across more than 90,000 square feet green concept, a 100% mechanized GMP unit. Licensed under drugs & cosmetics control act, 1940. License number AUS-932.

HOW DO THE HERBAL COMPOUNDS WORK ON THESE INCURABLE HEALTH DISORDERS / DISEASES?

INVENTOR'S OPINION: Probably phyto-chemicals of the herbal compounds knock the dormant cells of the particular organs for fresh cell growth, thereby, dysfunctional organs start functioning.

SAFETY TESTS: All kinds of safety tests have been conducted as per the FDA parameters.

COMPATIBILITY OF THE MEDICINE.

It can be taken with any allopathic medicine and no side effects.

Side effects: Till now, no side effects have been reported except its bitter taste. This bitter taste can be diminished by adding lemon juice and honey. However, if at all any uneasiness to take 30 ml of medicine in one go, then start with 7.5ml (one tea spoon), thereafter increase the dose to 15 ml (one table spoon) to 30 ml.

It is an over-the-counter drug as per U.S. Food & Drugs administration. This drug can be purchased without a prescription.
